Public invited to meeting about controlling growth of water hyacinth at B.A. Steinhagen Lake

The U.S. Army Corps of Engineers' Town Bluff Project Office and the Texas Parks and Wildlife Department will discuss their plan to control the growth of water hyacinth at B.A. Steinhagen Lake during an information meeting at 7 p.m., June 28, at the Tyler County Courthouse in Woodville, Texas. The public is invited.

Officials will discuss the problems the water hyacinth has created at the lake, including the impact to park use and lake access, as well as their plans to use herbicides to control the plant growth. The public may comment on the plans at the meeting.

For more information, contact Edward Murtishaw at the Town Bluff Project Office at 409-429-3491.
